

<b>Project Name</b>	Taking over technology, knowledge and experiences in collecting, storing, maintaining and analyzing municipal and other state's data - establishing of regional planning and realization of development supporting system, as a precondition for achieving uniform and sustainable development of the municipalities, members of EPR
<b>Start – End</b>	March 2012 - December 2015
<b>Project Value</b>	200.000 EUR
<b>Slovenian Funding</b>	120.000 EUR
<b>Recipient Country/ Donation Recipient</b>	North Macedonia / Center for the Development of East Planning Region
<b>CRS CODE</b>	CRS CODE 43040
<b>Project Description</b>	The objective of the project was to provide a high-quality statistical GIS base for the regional development planning and to assist in the promotion of the region's potential for domestic and foreign investors. The established base allows quick and easy access to the relevant infrastructural information to nominated personnel and controlled access to the information to external users and citizens. The project will contribute to greater public awareness of regional development policy; increased capacities of the competent state institutions for planning and implementation of regional development policies.
<b>Project Phase</b>	The project is concluded.
