

<b>Project Name</b>	Renovation of Waste Water Treatment Plant for Drinking Water in the Municipality of Štip
<b>Start – End</b>	April 2013 – December 2014
<b>Project Value</b>	889.468 EUR
<b>Slovenian Funding</b>	415.400 EUR
<b>Recipient Country/ Donation Recipient</b>	North Macedonia / Štip Municipality
<b>CRS CODE</b>	CRS CODE 14031
<b>Project Description</b>	Within the project the renovation and restoration of the technological line for the purification of surface water was carried out. WWTP Štip can now recover surface water from hydro system Zletovica, which was funded by the Government of the Republic of Macedonia to provide water for the surrounding county. The project objectives were to enable sustainable use of water and the provision of safe drinking water, prevent adverse effects on human health, especially preventive actions for future generations and to promote social and economic development in a degraded environment.
<b>Project Phase</b>	The project is concluded.
