

Project Name	Design and Construction of Wetlands in Vranjina Settlement
Start – End	January 2016 – December 2019
Project Value	245.000 EUR
Slovenian Funding	122.500 EUR
Recipient Country/ Donation Recipient	Montenegro / Ministry of Sustainable Development and Tourism
CRS CODE	CRS CODE 14030
Project Description	<p>Untreated waste waters in Vranjina village threaten the waters of Skadar Lake and the health security of the local population. A system of wetlands was constructed, where the waste waters are treated using a variety of flora, sandy substrates and methods of the flow of water to facilitate the effective removal of pollutants from water by using physical and chemical processes, microbial action and plant uptake. The project will contribute to the reduction of harmful emissions and concentrations of wastewater as well as to improved health security of the population.</p>
Project Phase	The project is concluded.
