

<b>Project Name</b>	Preparation and implementation of digitization in the State Archives of the Republic of North Macedonia
<b>Start–End</b>	December 2022–April 2024
<b>Project Value</b>	218.000 EUR
<b>Slovenian Funding</b>	183.000 EUR
<b>Recipient Country/ Donation Recipient</b>	North Macedonia / State Archives of the Republic of North Macedonia
<b>Project Contractor</b>	not selected yet
<b>CRS CODE</b>	CRS CODE 15126
<b>Project Description</b>	<p>The State Archives of the Republic of North Macedonia (<i>DARSM</i>) is the custodian of archival material for North Macedonian ministries, state bodies and agencies, municipalities, cultural and scientific institutions, business entities and natural persons. The entire archive is currently accessible in physical form, located in various locations and facing a major space constraint. The project will prepare the basis for the digitization of all document management procedures and the archiving process, which will ensure transparent, better quality and more efficient management of archival documentation, as well as a wider digitization of the operations of the public administration of the Republic of North Macedonia. As part of the project, in the form of the DIG_DARSM pilot project, the DARSM archive documentation will be partially digitized. Digitization of the archive will also help to use resources more efficiently and reduce the use of paper, the production of which is extremely energy-consuming and harmful to the environment.</p>
<b>Project Phase</b>	The project is being implemented.
