Project Description	<p>Albania was hit by an earthquake with magnitude 6.4 on 26th November 2019, the epicenter was about 30km west of the capital city Tirana. The earthquake damaged thousands of buildings, including educational institutions and health centers. As part of the project, the Albanian side will provide a plot and communal connections for the construction of a modular facility, and with the funds of a donation from the Republic of Slovenia, a foundation slab will be built and a modular school will be set up in Nuaje in Kruje municipality. The aim of the project is to mitigate the effects of the earthquake on children as the most vulnerable population. The provision of adequate facilities will enable the implementation of the educational program that was curtailed after the earthquake. The establishment of a modular school in Albania will also be a pilot project that can be followed by other donors in Albania or the Albanian authorities.</p>
Project Phase	The project is concluded.
