Project Description	<p>Basic health care in Kenya is deficient due to the difficult economic situation in the country and hospitals urgently need additional hospital equipment. The Slovenian donation was delivered to three hospitals in Kenya. As part of the project, which was carried out in cooperation with Hungary, a total of 27 hospital beds with associated mattresses and trapezoids were purchased and installed in selected hospitals. Hospital staff was trained to use the donated equipment. The purpose of the project to improve the health service that these hospitals provide to patients, has been achieved, as the new hospital beds in most cases represent additional capacity for hospitals.</p>
Project Phase	The project is concluded.
