

Project Name	Construction of two Biological Waste Water Treatment Plants in the District of Straseni
Start–End	September 2014–December 2015
Project Value	640.000 EUR
Slovenian Funding	381.257,63 EUR
Recipient Country/ Donation Recipient	Moldova / District Council of Straseni
Project Contractor	Riko d.o.o., Ljubljana
CRS CODE	CRS CODE 14021
Project Description	The donation of the Republic of Slovenia co-financed the construction of two biological waste water treatment plants, one for the special school and boarding school in the city of Straseni and the other for children's recreational camp. The main objective of the project was to ensure adequate waste water treatment and reduce the pollution of groundwaters. Waste water treatment plants will improve the conditions for children's social programmes and sustainable development of the Straseni district.
Project Phase	The project is concluded.
