

Project Name	Ecoremediation as a Development Strategy of Montenegro
Start–End	August 2012–May 2016
Project Value	206.000 EUR
Slovenian Funding	126.000 EUR
Recipient Country/ Donation Recipient	Montenegro / Ministry of the Environment and Spatial Planning
Project Contractor	Limnos d.o.o. Ljubljana
CRS CODE	CRS CODE 41010
Project Description	The donation of the Republic of Slovenia supports the project of ecoremediations, which enables restoration or protection of degraded natural resources. The project identified the most important environmental problems, prepared a set of selected possible ecoremediations, defined the priority areas for the implementation of ecoremediations, formed expert bases for their implementation and set up two model ecoremediation treatment plants. The project will contribute significantly to the protection of natural resources.
Project Phase	The project is concluded.
