

Project Name	Elaboration of Feasibility Study, Setting up the Tool for the Application of the Project for Co-Financing and Preparation of Tender Documentation for the Project of Construction of Wastewater Treatment Plant and Main Sewage - of Municipalities Breza and Ilijaš and the Part of the Municipality Vogosča
Start–End	November 2011–December 2014
Project Value	200.000 EUR
Slovenian Funding	200.000 EUR
Recipient Country/ Donation Recipient	Bosnia and Herzegovina / Agency for the Water Area of Sava River
Project Contractor	Hidroinženiring d.o.o., Ljubljana
CRS CODE	CRS CODE 14022
Project Description	The donation of the Republic of Slovenia supported the elaboration of the study for the construction of treatment plant and the study for the construction of sewage system in Breza, Ilijaš and Vogosča Municipalities. Studies will serve as a basis for the investment in construction of the treatment plant and sewage system. This will resolve the issues of collection and treatment of waste water in the municipalities, which will contribute to the reduction of the environmental pollution and increased health safety of the population.
Project Phase	Project is completed.
