

<b>Project Name</b>	The Detailed Spatial Plan for Multi-purpose Accumulations on the Morača River
<b>Start–End</b>	October 2012–December 2014
<b>Project Value</b>	519.000 EUR
<b>Slovenian Funding</b>	90.000 EUR
<b>Recipient Country/ Donation Recipient</b>	Montenegro / Ministry of Sustainable Development and Tourism
<b>Project Contractor</b>	Urbi Montenegro d.o.o., Podgorica
<b>CRS CODE</b>	CRS CODE 14015
<b>Project Description</b>	The purpose of the project was to elaborate a detailed spatial plan for multi - purpose accumulations that includes the entire river basin of Morača, from the spot where the river Zeta flows into the Morača. The hydropower potential of the Morača and its tributaries will be exploited on the basis of the elaborated plan. The spatial plan includes four hydro energy locations. This will represent the basic solution for the exploitation of the Morača midstream potential in hydroelectric power plants: Zlatica, Milunovići, Raslovići and Andrijevo.
<b>Project Phase</b>	The project is concluded.
