

Project Name	Feasibility Study of Mechanical-biological and Thermal Waste Treatment in the Municipality of Berane and Feasibility Study of Municipal Heating Network in Municipality of Berane
Start–End	October 2011–December 2012
Project Value	200.000 EUR
Slovenian Funding	100.000 EUR
Recipient Country/ Donation Recipient	Montenegro / Berane Municipality
Project Contractor	University of Maribor, Faculty of Mechanical Engineering
CRS CODE	CRS CODE 14050
Project Description	The project comprises the implementation of “Feasibility study of mechanical, biological, and thermal processing of municipal waste in Berane” and “Feasibility study of district heating in Berane”. Studies provide the basis for the decision on investments from a technological, economic and ecological perspective. Both studies are prepared in Montenegrin and English language so they can serve as the basis for the international tender for the project implementation. Project aims to prepare the basis for investing into processing of municipal waste system and district heating in the city.
Project Phase	Project is concluded.
