

Project Name	Taking over technology, knowledge and experiences in collecting, storing, maintaining and analyzing municipal and other state's data - establishing of regional planning and realization of development supporting system, as a precondition for achieving uniform and sustainable development of the municipalities, members of EPR
Start–End	March 2012–December 2015
Project Value	200.000 EUR
Slovenian Funding	120.000 EUR
Recipient Country/ Donation Recipient	North Macedonia / Center for the Development of East Planning Region
Project Contractor	Kaliopa Informacijske rešitve d.o.o., Ljubljana
CRS CODE	CRS CODE 43040
Project Description	The objective of the project was to provide a high-quality statistical GIS base for the regional development planning and to assist in the promotion of the region's potential for domestic and foreign investors. The established base allows quick and easy access to the relevant infrastructural information to nominated personnel and controlled access to the information to external users and citizens. The project will contribute to greater public awareness of regional development policy; increased capacities of the competent state institutions for planning and implementation of regional development policies.
Project Phase	The project is concluded.
