

Project Name	Development of IT Infrastructure System for Montenegrin Energy Sector (ITISMES)
Start–End	November 2010–December 2012
Project Value	766.576,80 EUR
Slovenian Funding	400.000 EUR
Recipient Country/ Donation Recipient	Montenegro / Ministry for Economic Development
Project Contractor	Korona d.d. Ljubljana
CRS CODE	CRS CODE 32010
Project Description	An appropriate information technology support in the form of modern and efficient information system in the Energy Sector is necessary for operations of Regulatory Agency for Energy. The information system consists of hardware and software developed and tested in practice and adapted to the distinctive features of Montenegro. Such system will provide operators in the Energy Sector with an efficient tool, enabling them to automate their work process, thus ensuring openness, predictability, flexibility and transparency in the Energy Sector.
Project Phase	The project is concluded.
