

Project Name	Development of National strategy for Waters in the Republic of Macedonia
Start–End	August 2009–December 2012
Project Value	347.765 EUR
Slovenian Funding	210.000 EUR
Recipient Country/ Donation Recipient	North Macedonia / Ministry of Environment and Spatial Planning
Project Contractor	Hidroinženiring d.o.o. Ljubljana in Riko d.o.o. Ljubljana
CRS CODE	CRS CODE 14010
Project Description	The objective of the project was to draft the national water management strategy as the basic document on planning and development of water management in the Republic of Macedonia. Water management strategy sets out the policy of water management and the guidelines for the protection of water, protection against detrimental effects of water and sustainable use of water. The strategy represents the legal basis for all future investments in the water sector in Macedonia, which must be strategically coordinated.
Project Phase	Project is concluded.
