

Project Name	GreenAct
Start–End	January 2024 – December 2024
Project Value	180.305 EUR
Slovenian Funding	91.955 EUR
Recipient Country/ Donation Recipient	North Macedonia / Municipality Aračinovo
Project Contractor	PMIZ Energomontaža, Skopje Solar Installers Team DOOEL, Skopje
CRS CODE	CRS CODE 14040
Project Description	<p>The objectives of the project were to provide self-sufficient electricity from renewable energy sources, strengthen regional energy security, supply green energy for the operation of public infrastructure, and address the challenges of air pollution and related health problems. The project contributed to North Macedonia's transition to a low-carbon economy that efficiently utilizes natural resources, is safe and sustainable, and aligns with the EU's broader climate change and environmental objectives. As part of the project, three photovoltaic systems for electricity generation were installed, along with heat pumps at Gjergj Kastrioti and Bajram Shabani primary schools and the municipal administration building.</p> <p>In addition, the "Energy-Efficient School" competition was organized, ensuring active participation, engagement, and competition among students, teachers, and other staff.</p>
Project Phase	The project is concluded.
