

Project Name	Water Supply Network in Suburban Settlement of City of Mostar
Start–End	January 2023–December 2024
Project Value	572.218,12 EUR
Slovenian Funding	257.758,98 EUR
Recipient Country/ Donation Recipient	Bosnia and Herzegovina / City of Mostar
Project Contractor	JP Vodovod d.o.o. Mostar, ECCON INŽINJERING d.o.o. Čapljina
CRS CODE	CRS CODE 14031
Project Description	<p>Most of the population of the municipality of Mostar is supplied with water by the central municipal water supply system. However, in the Žitomislići settlement, residents still rely on wells or water tanks for their water supply. In 2022, the Municipality of Žitomislići, together with the municipal JP Vodovod,d.o.o. initiated the preparation of project documentation for a water supply network in Žitomislići. The project included the construction of a water supply system from the wells in Biletić Polje to the bridge over the Neretva River and then across the bridge to the settlement of Žitomislići. This project has a significant impact on the population of the Municipality of Mostar, as the improvement of the water supply system in the suburban settlement of Žitomislići will ensure an adequate supply of drinking water for all residents.</p>
Project Phase	The project is concluded.
